Please recognize three key facts:

1.) Those who are suing Microsoft are second-best companies who can not compete with

Microsoft on the quality of software needed by the masses.

2.) I have never met an individual who has said he/she were not satisfied with Microsoft's software. People

are NOT saying they have been cheated and or overcharged.

3.) These people , who are purported to have been cheated and or overcharged, do NOT exist. These

people are imaginary people who have been created by the second-best software companies.
